

ERASMUS+ GEEL, BELGIJA

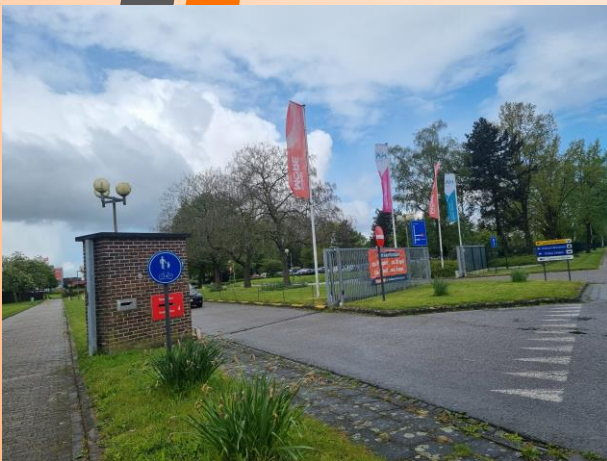

Adam Bošnjak

ERASMUS+

Thomas More University of Applied Sciences je sveučilište u sastavu KU Leuven, s 22000 studenata i 12 kampusa. Ja sam svoju Erasmus + mobilnost odradio na kampusu u Geelu.

Kampus Geel sastoji se od nekoliko blokova, po kojima su podijeljene različite grane studija. Ja sam većinu vremena proveo u B bloku, na odjelu elektromehanike. Nešto vremena sam proveo u P bloku u laboratoriju elektronike.

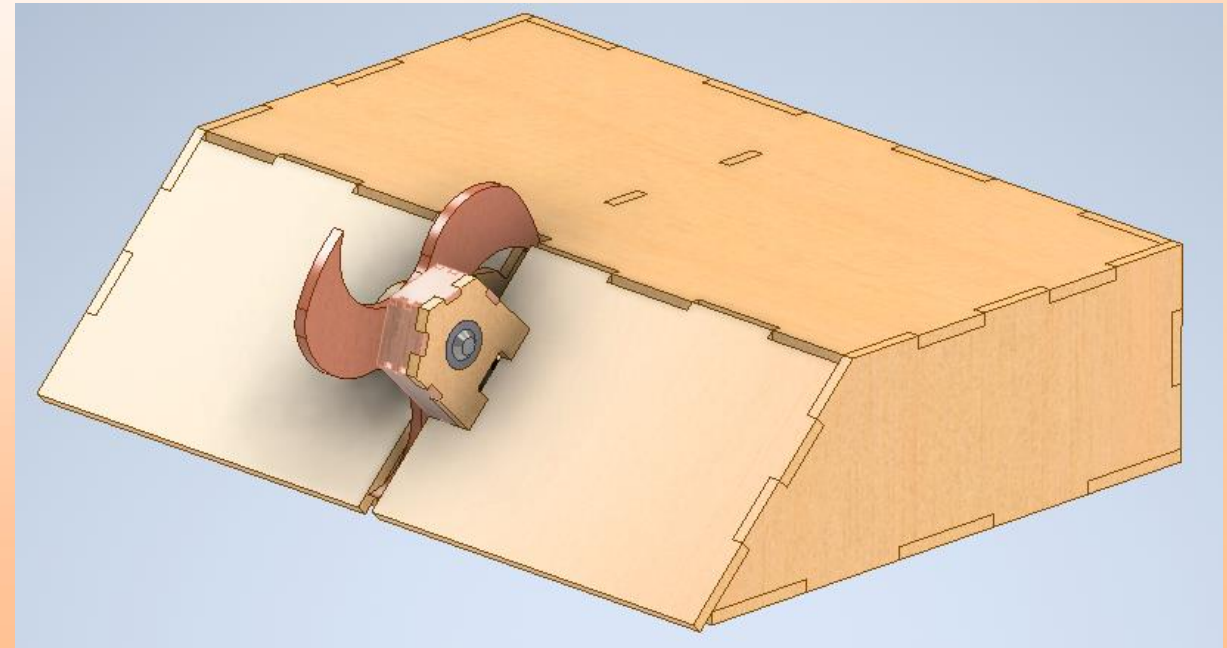

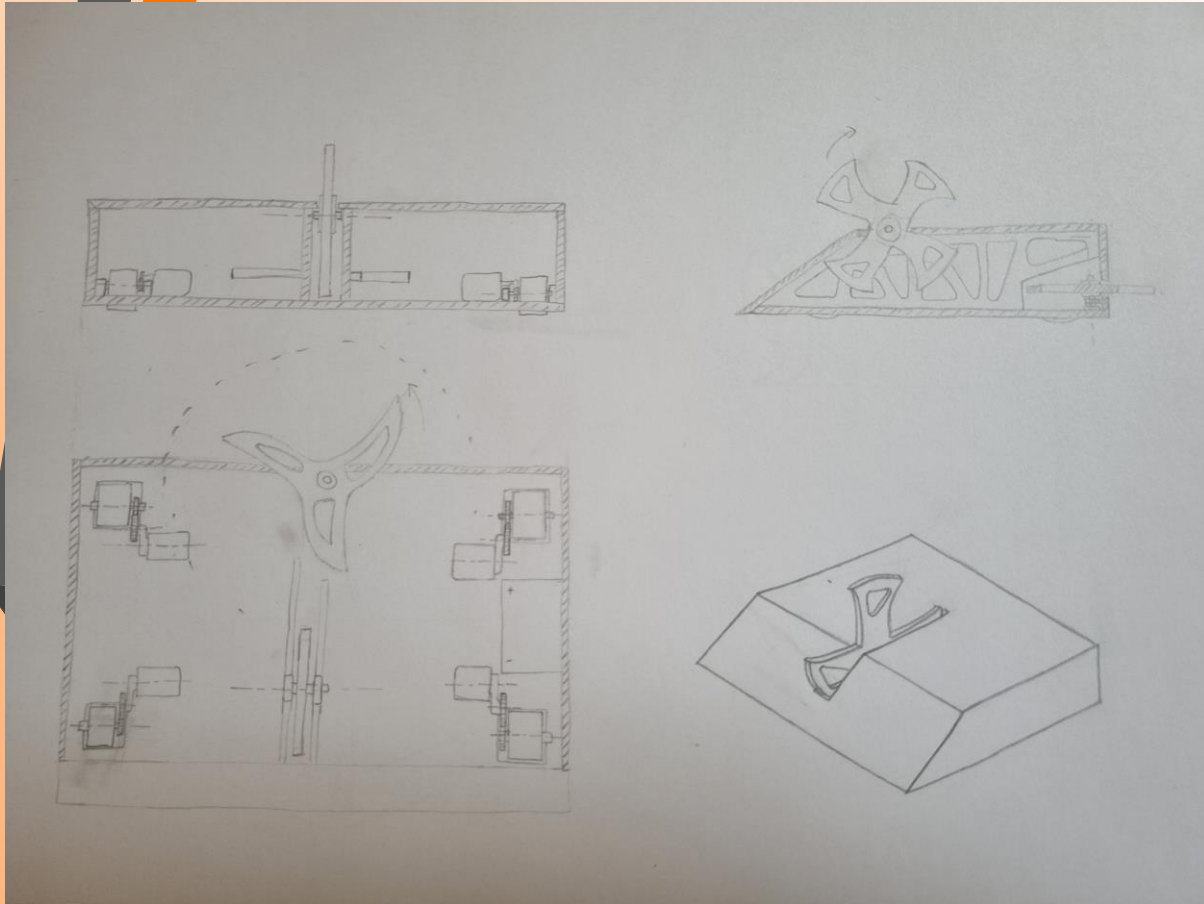

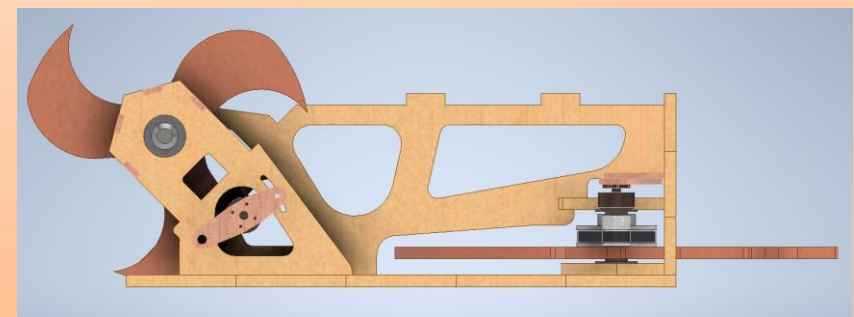

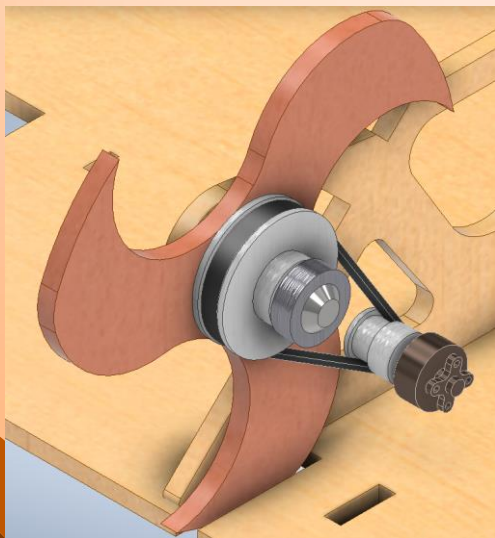

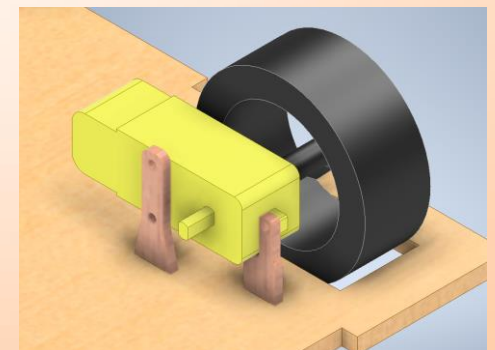

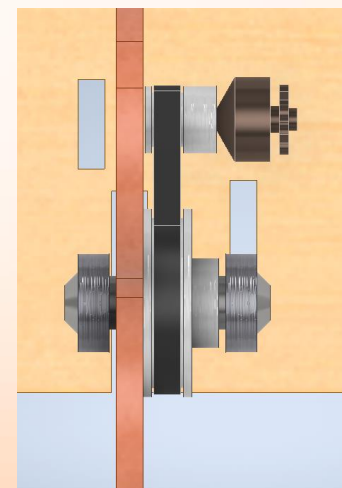

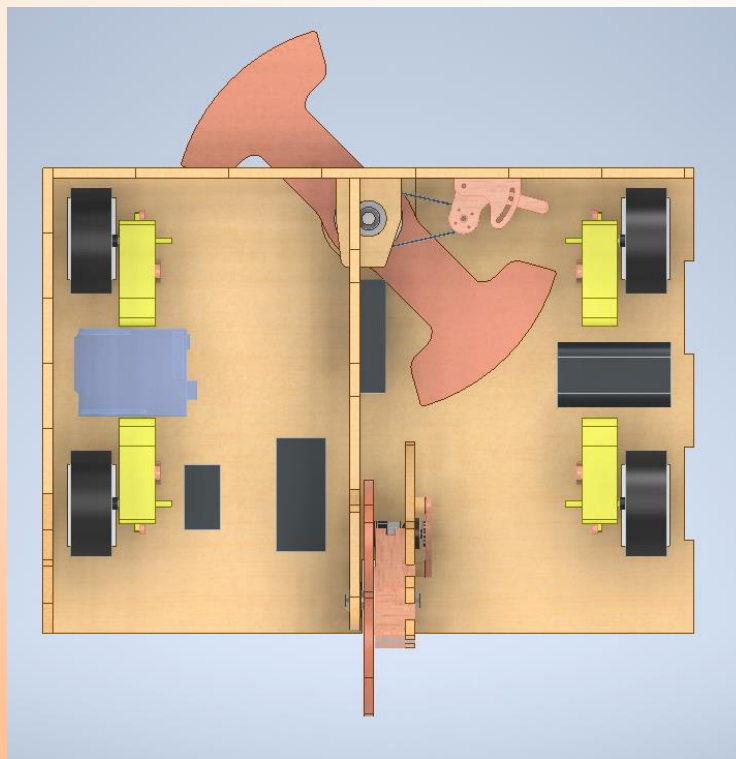

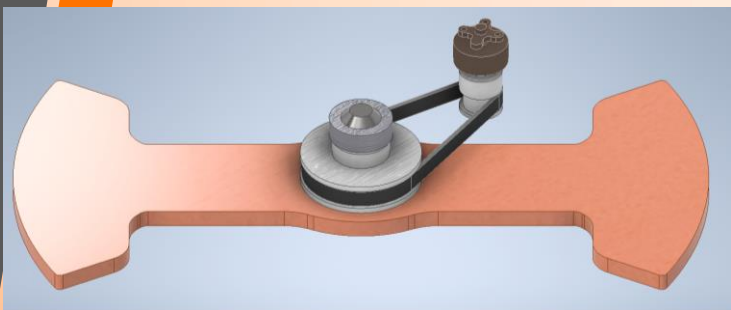

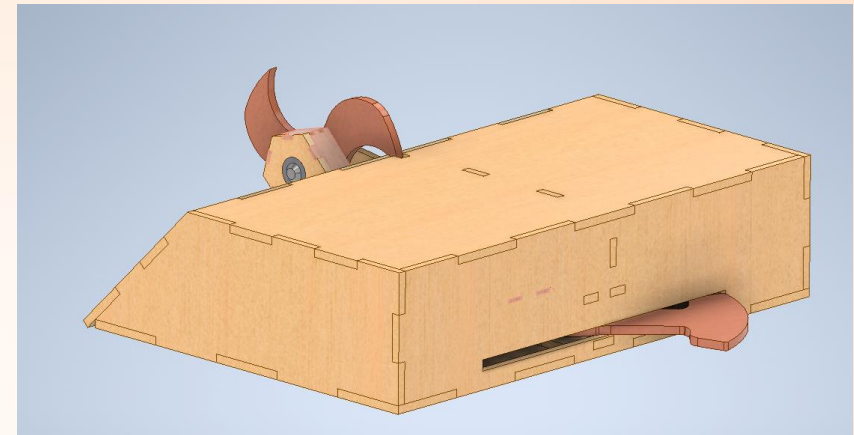

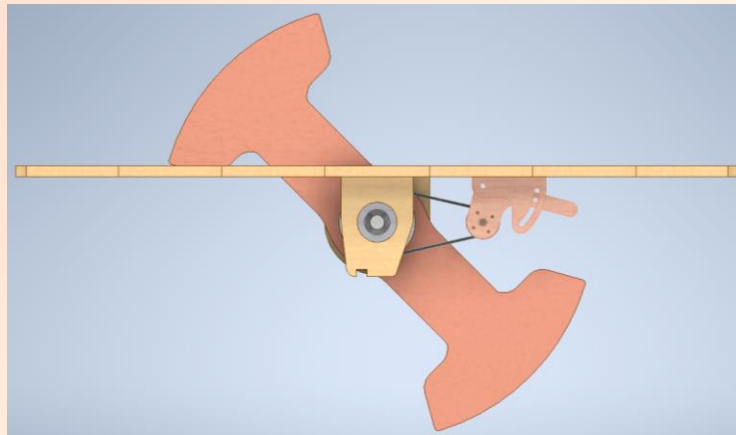

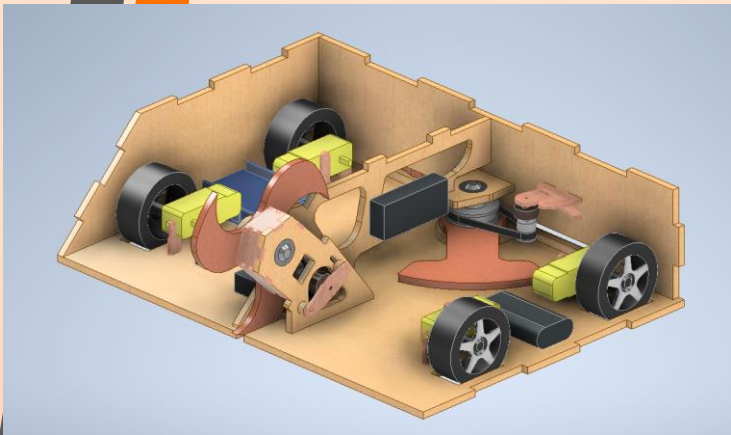

Kampus sadrži mnoge lokacije za odmor, rad, društvene aktivnosti i sl.

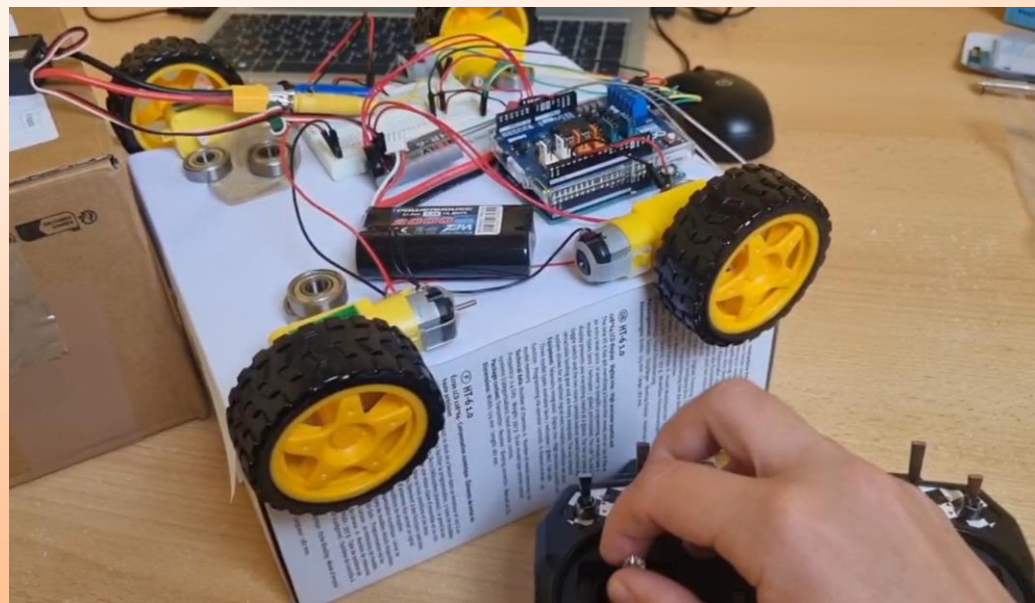

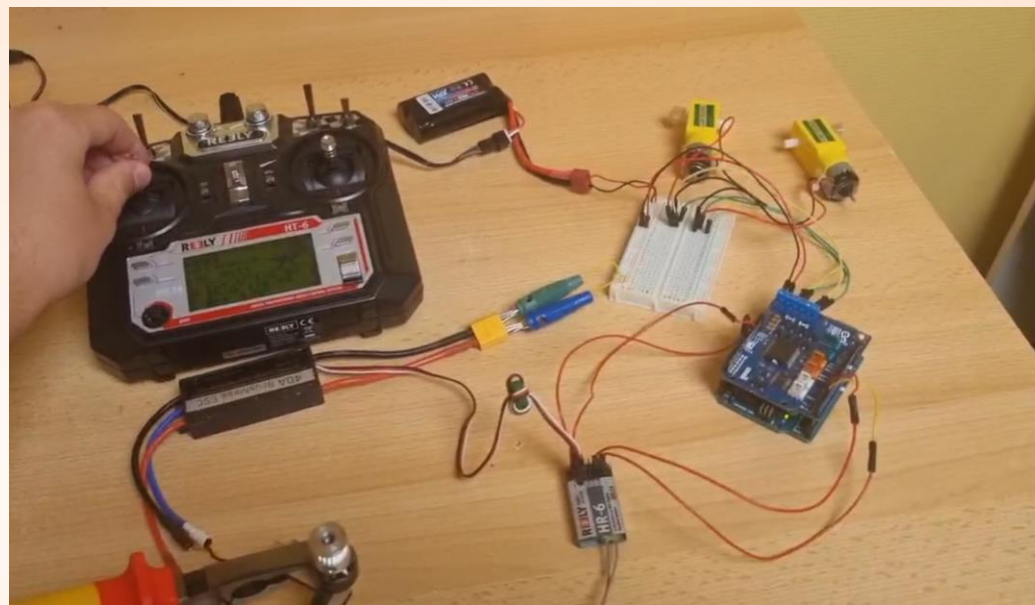

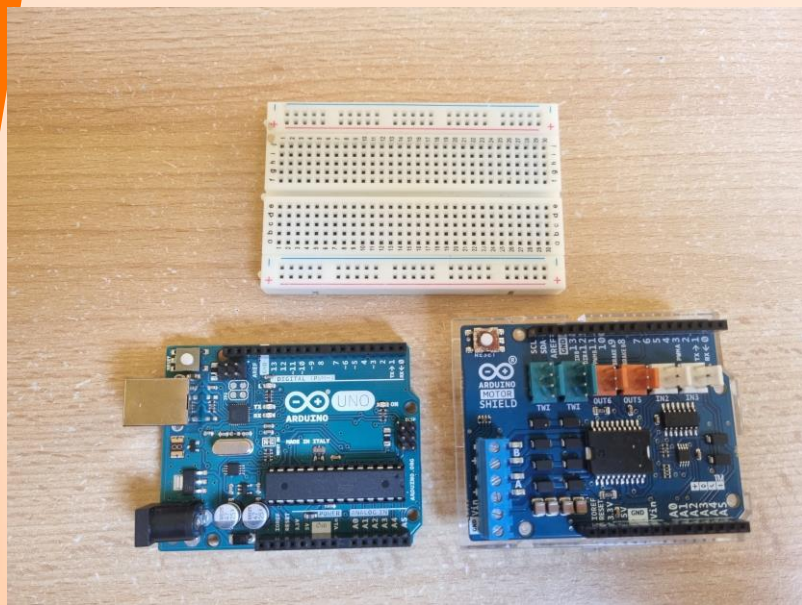

Project Battle Bots

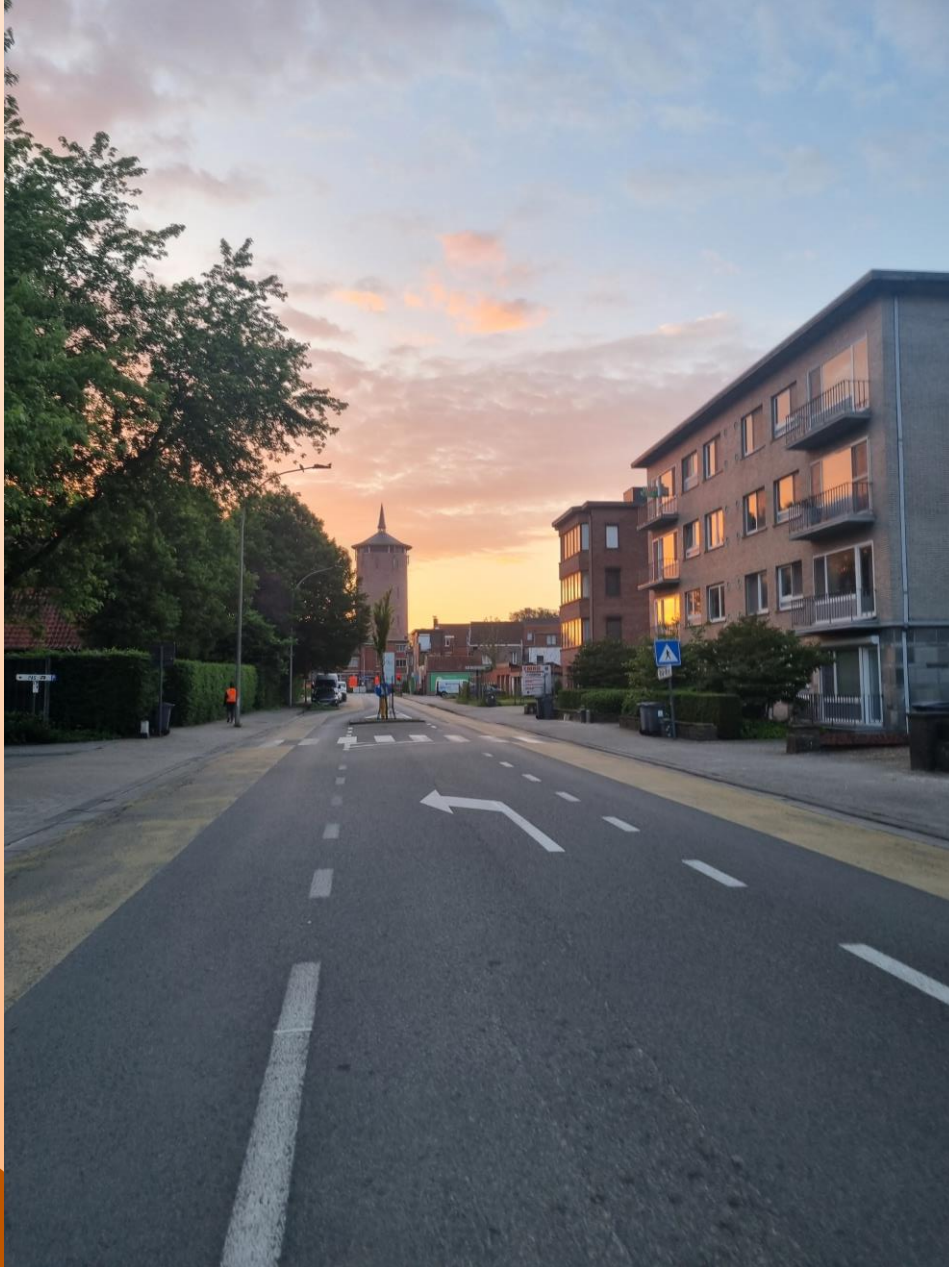

Projekt koji sam radio u sklopu prakse bio je dizajnirati, programirati i izraditi funkcionalni borbeni robot u svrhu prezentacije elektromehaničkih sustava srednjoškolcima. Dizajn sam proveo kroz skice, AutoCAD crteže i Inventor 3D model. Programiranje sam radio u Arduino platformi, a daljinska kontrola je izvedena uz pomoć odašiljača i prijenosnika signala.
