

Project name:	Student practice and the labour market - development opportunities for entrepreneurs and students
Description:	During the implementation of this project, a number of activities will be carried out which will provide feedback from employers and students on the satisfaction of conducting and organizing student practice. Information on the satisfaction with the implementation of student practice is necessary in order to successfully detect areas of possible dissatisfaction with student practice by students on the one hand, but also by employers on the other, and in order to eliminate and create possible modified ways of organization of student practice.
